

05-05-2026

Crud Operations implemented for Notification System:

Source code GitHub url: <https://github.com/Padmavathi-SJ/Presidio-training/tree/main/05-05-2026/notifySystem>

Output:

```
05-05-2026 > notifySystem > Program.cs
12 namespace NotifySystem
13 {
14     class Program{
15         static async Task Main(string[] args){
16             // load environment variables from .env file
17             Env.Load();
18             // configure SMTP from .env credentials
19         }
20     }
21 }
